

# TURBO PUMP STATION

Major's new highly efficient Pumping Station features a galvanised 500 litre/110 gallon cyclone separation tank with large access door for cleaning out stones and other debris. A galvanised steel mesh filtration unit is located in the upper housing and can be easily removed.

Galvanised steel mesh filter housing

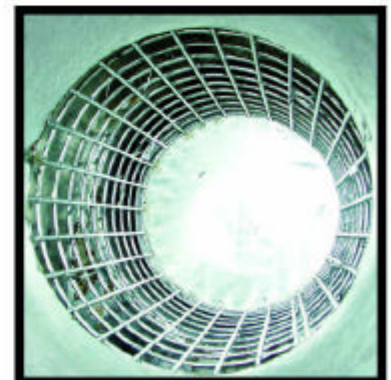

Access door for cleaning cyclone tank

6" inlet

4" outlet can be faced in either direction or up with various valve options.

High tensile steel chopper blades pulverise remaining material which will prevent blockages in outlet pipe.

## Choice of pumps:

Elba Centrifugal Chopper Pump  
Max Head: 70m  
Output 6500 l/min  
Max Power 60kW - 80HP

Doda L27 Chopper Pump  
Max Head: 90m  
Output: 3300 l/min  
Max Lift: 6-7m

Doda L35 Chopper Pump  
Max Head: 90m  
Output: 4300 l/min  
Max Lift: 6-7m

The 4" outlet manifold is suitable for various applications including:

- Overhead fill
- Umbilical pumping.
- Slurry agitation.
